

ZINCOAT EPOXY

TWO-PACK INDUSTRIAL PRIMER

ANTI-CORROSIVE PROTECTION

Zincoat Epoxy is a high-performance zinc phosphate primer offering superior corrosion protection for mild steel. Its advanced two-component epoxy formula delivers excellent adhesion and durability, functioning as both a primer and a topcoat.

- **HIGH-PERFORMANCE ZINC PHOSPHATE PROTECTION**
Provides superior corrosion resistance for long-term durability.
- **EXCELLENT ADHESION TO MILD STEEL**
Strong bonding ensures a tough and reliable protective layer.
- **SURFACE-TOLERANT DUAL COAT SYSTEM**
Works effectively on various surface conditions.
- **COMPATIBLE WITH MOST INDUSTRIAL COATINGS**
Seamless integration with a wide range of industrial systems.

**IDEAL FOR MILD STEEL SUBSTRATES**
Engineered for high-performance protection in industrial environments.

AVAILABLE PACK SIZES

1L 4L 20L

1. WHY CHOOSE ZINCOAT EPOXY?

- **Superior Corrosion Protection**
Zinc phosphate technology provides excellent barrier protection against rust and corrosion.
- **Strong Adhesion**
Exceptional adhesion to mild steel ensures a long-lasting, tough finish.
- **Versatile Application**
Surface-tolerant formula works effectively even on less-than-ideal surface conditions.
- **System Compatibility**
Compatible with most industrial coating systems for complete protection.

2. IDEAL FOR

- **New Construction Projects**
Ideal for structural steel and fabrication works.
- **Industrial Maintenance Applications**
Perfect for refineries, plants, tanks, and machinery.
- **Mild Steel Substrates**
Engineered specifically for mild steel surfaces.

3. PRODUCT DETAILS

TECHNICAL INFORMATION

- Product Type**
Two-Pack Epoxy Primer
- Technology**
Zinc Phosphate
- Finish**
Matt
- Application**
New construction application; Maintenance application; Mild steel substrates
- Mixing Ratio**
As per data sheet
- Color**
Grey
- Shelf Life**
12 months (unopened)

* Results may vary depending on surface condition and application.

KEY BENEFITS

- **High-Performance Protection**
- **Excellent Adhesion To Mild Steel**
- **Surface-Tolerant Dual Coat System**
- **Compatible With Most Industrial Coatings**

4. HOW TO APPLY

- **1 PREPARE SURFACE**
Ensure the mild steel surface is clean, dry, and free from loose rust, scale, or contaminants.
- **2 MIX COMPONENTS**
Thoroughly blend the two-component epoxy system according to the specified mixing ratio until a uniform consistency is achieved.
- **3 APPLY COATING**
Apply the primer evenly to the substrate, allowing adequate drying time before exposure or overcoating.

5. SAFETY FEATURES & PRECAUTIONS

- **Wear protective gloves**
- **Wear eye protection**
- **Use in well-ventilated areas**
- **Avoid inhalation of vapors**
- **Keep out of reach of children**

Refer to MSDS for complete safety information.

STORAGE PRECAUTIONS

- 
- Store in a cool, dry place.
 - Keep containers tightly closed when not in use.
 - Protect from moisture, direct sunlight, and extreme heat.
 - Shelf life: 12 months from date of manufacture.

RECOMMENDED FOR

- ✓ New Construction Projects
- ✓ Industrial Maintenance Applications
- ✓ Mild Steel Substrates
- ✓ Fabrication Works
- ✓ Structural Steel
